GOOGLE SLIDES

Digital — Google Slides

This lesson's slides also come as a Google Slides deck. It has the same slides as the PowerPoint file in this folder.

How to use it

1. Click the link below. Google asks if you want to make a copy. Say yes. The copy is saved in your own Drive.
2. The copy is yours. Edit it, add your school's name or move slides around. Nothing you change affects anybody else.
3. Present it from Google Slides, or share it with your class through Google Classroom.

THIS LINK MAKES YOU A COPY

The link ends in /copy. That gives you your own deck instead of opening ours. If the link ever asks you to sign in as somebody else, close it. Then let us know through the TPT Q&A.
