

BELL RINGER

Topic 1.1: Introduction to Algorithms, Programming, and Compilers

Bell Ringer — Topic 1.1

Take 3 minutes. Write your answers in full sentences.

1. Write the exact steps you would give a younger sibling to make a peanut-butter sandwich — as if they will follow them literally, with no guessing.
2. When you type a program and something goes wrong, where do you think the computer 'notices' the problem — before it runs, or while it is running? Give an example.
