GOOGLE FORMS

Digital — Google Forms

The exit ticket is also a self-grading Google Form. The multiple-choice items grade themselves and give students feedback on a wrong answer. The written responses go to your response sheet for you to read.

How to use these

1. Click a link below. Google asks if you want to make a copy. Say yes. The copy is saved in your own Drive.
2. The copy is yours. Edit it, add your school's name, delete a question, whatever you need. Nothing you change affects anybody else.
3. Assign your copy through Google Classroom or share the link. Responses come back to you, not to us.

Form	Grading	Link — opens a copy in YOUR Drive
Exit Ticket	self-grading	`https://docs.google.com/forms/d/1SavaIfY8VwyJvb68W2yqFNSrhMwULGOUDjBl-lxXT6Q/copy`

THESE LINKS MAKE YOU A COPY

Each link ends in /copy. That hands you your own form instead of opening ours. If a link ever asks you to sign in as somebody else, close it and let us know through the TPT Q&A.

What the forms do and don't grade

Part	Graded by	Note
Multiple choice	Google, instantly	Every wrong answer shows feedback that explains the right one.
Written response	You	The sample answer and the points are in the printed answer key.
