BELL RINGER

Day 1 — Every Java Program Lives in a Class

Bell Ringer: Beatrice's First Lines

Name: _____ Date: _____

Read what Beatrice says and her code. Then answer both questions.

What Beatrice says
This is my first Java code. I think it prints three lines.

```
1  System.out.print("Hello, ");
2  System.out.println("Beatrice!");
3  System.out.print("Welcome to class.");
```

1. How many lines do you think this code prints? Write 1 word.

2. Write the exact text you think it prints, in 1 to 3 lines.
