

Money Simulation Kickoff: My Economy

Name: _____ Period: _____ Date: _____

This is the first entry in your course-long My Financial Life Plan.

All course long you will live as one 'person' making real money decisions. It starts now: draw a career and salary, then describe your place in the economy. Keep this page - every unit builds on it.

Step 1 - Draw Your Career & Salary Card

Your teacher will deal you a Career & Salary Card from the printed set in this folder (1.1_Career_Salary_Cards.pdf). Record its details below. This is your starting point - not your destiny.

My Career Card	Details
Career / job title	
Starting annual salary	
Education or training it needs	
One thing I'd spend on / one thing I'd save for	

Step 2 - Write Your 'My Economy' One-Pager

In a short paragraph, describe yourself as an economic player. Use at least three vocabulary terms (economy, consumer, producer, circular flow, saver).

My role as an **EARNER**:

My role as a **CONSUMER** (what my spending tells businesses):

My role as a **SAVER** (one financial goal I already have):

Step 3 - Reflection

How does being a financially self-sufficient person help the whole economy?

PORTFOLIO NOTE

Save this page. You will revisit your career, salary, and goals in every unit, ending with a capstone presentation of your complete My Financial Life Plan.
