ACTIVITY

Day 1 — What a Program Is

Predict the Output

Name: _____ Date: _____

Each program below runs from top to bottom. Read the code, and then show what it prints.

Write each line of output on its own line in the box, letter for letter. Don't write the quote marks.

How do you earn points?

Each program is worth 2 points.

The last question is worth 2 points.

The sheet is worth 18 points.

Part A: Write what prints

```
1  print("Good morning!")
2  print("Welcome to class.")
```

1. Program 1: A morning hello. Write the exact output.

Output

```
1  print("Python")
2  print("is fun!")
```

2. Program 2: Python is fun. Write the exact output.

Output

```
print("3")
print("2")
print("1")
print("Blast off!")
```

3. Program 3: Countdown. Write the exact output.

Output

```
print("We are the")
print("Oak Hill Owls!")
print("Go, Owls, go!")
```

4. Program 4: Team cheer. Write the exact output.

Output

Part B: Watch every mark

```
print("Hi, Priya!")
print("See you soon.")
```

5. Program 5: See you soon. Write the exact output.

Output

```
print("BOOK CLUB")
print("Room 12")
print("bring a book")
```

6. Program 6: Book club. Write the exact output.

Output

```
print("Lunch is at 11:30.")
print("Bring a fork!")
```

7. Program 7: Lunch time. Write the exact output.

Output

```
print("Put on your socks.")
print("Put on your shoes.")
print("Tie your laces.")
```

8. Program 8: Getting dressed. Write the exact output.

Output

Last question. Darius says Program 3 prints Blast off! first, because it's the most exciting line. Is he right? Explain in 1 or 2 sentences.
