BELL RINGER

Day 1 — Update Operators and Editor Tools

Bell Ringer: The Trick Board

Name: _____ Date: _____

Read what Darby says and the program. Then answer both questions.

What Darby says

I run the scoreboard at Stonebridge Skate Park. Each rider starts with 2 points, and each of 3 tricks adds 3 more.

```
score = 2
for trick in range(3):
    score += 3
print(score)
```

1. Write the 1 line this program prints.

2. What does `score` hold after the loop's first pass? Write 1 short sentence.
